- ✓ Continue training as General Practice or Speciality programmes;
- ✓ Get your Permanent Residency.

Italy

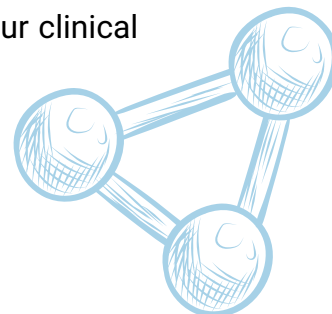

Requirements for Application

- + Age 18+;
- + Having completed a 12-year diploma;
- + Proof of passing the entry university exam (if applicable) entrance test in the country of origin;
- + English / Italian Proficiency - B2;
- + Taking the IMAT or the entry exam of the private university.

Applicants can study medicine in 13 public universities in Italy. And also, there are 4 high ranked private universities also in Italy between Euro 15,000 - 20,000 per year. Each of these private universities have their own entrance exam. The tuition fees for the public universities for medicine is from Euro 500 -2000 per year but it is possible to get the full scholarship. The entry exam for medical studies in public universities is called IMAT and is held in September.

Is it necessary to speak Italian during clinical training? Is there an Italian language course?

Since during the clinical training process, you will be communicating with patients, you must know Italian. In order to avoid communication problems during the clinical education period, students who receive English medical education in Italy are also given a free Italian course in the first years. In this way, you will not have any communication problems during your clinical practice with patients and hospital staff.

How our consultant Consultants help you with this process

Our professional consultants can guide you in your medical school application to both private and public universities; you can request the following services from IEC consultant Consultants - UAE:

- ✓ Italian Embassy Pre-Application;
- ✓ IMAT Registration;
- ✓ IMAT Preparation Consultancy;
- ✓ Consultancy for University Choices;
- ✓ University Pre-Application;
- ✓ Scholarship Application;
- ✓ Accommodation Application;
- ✓ University Enrolment (If IMAT results are successful);
- ✓ Visa Application Consultancy;
- ✓ Welcoming Service to the Applied University;
- ✓ Residence Permit Consultancy.

Life in Italy

- ✓ Beautiful country;
- ✓ Very good weather (4 season);

- + Registration for the exam is carried out in July
- + The exam is held in September, the results are announced in October

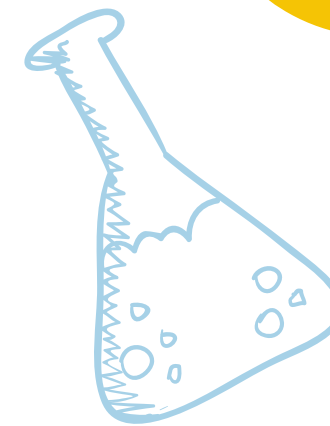

UCAT

The University Clinical Aptitude Test is an entrance test accepted by a consortium of universities in the UK, Australia and New Zealand for entry into medical and dental degree programs. The exam tests a student's mental ability and his readiness to join a medical school. The UCAT and UCAT ANZ are two-hour computer-based tests, divided into five separately timed multiple-choice tests: Verbal Reasoning, Decision Making, Quantitative Reasoning, Abstract Reasoning, and Situational Judgement.

Section	Questions	Time
Verbal Reasoning	44	28 minutes
Decision Making	29	40 minutes
Quantitative Reasoning	36	31.5 minutes
Abstract Reasoning	55	17.5 minutes
Situational Judgment	69	34 minutes

Do you need exam resources?
We can help you with this

● [Call us to book UCAT exam for you.](#)

The 120-minute exam is designed to check "Clinical Aptitude", with questions that test the ethical as well as cognitive abilities expected of good medical professionals. The importance of the exam is indubitable in light of the fact that almost 27 out of the 34 Medical Schools in the UK require the UCAT/ UKCAT Scores as a part of their admission process. Even though the object of the test is to check the aptitude of the candidates, the questions range from verbal, quantitative and abstract reasoning to decision making and situational judgment. Coupled with heavy competition, it becomes almost impossible to secure a seat in a good medical school without proper and guided preparations beforehand. The UCATSEN is an extended version of the UCAT for those with documented disorders or disabilities. The exam is a must for all students planning to pursue a medical programme in the UK, which is needless to say, the best-in-class. The competition is vigorous, as is apparent from the fact that only about 30% of the applicants are accepted into medical schools. The rate is much lower for more prestigious colleges requiring a high standard of qualification. It thus becomes necessary to go for a result oriented guided preparation for the same.

BMAT

The BioMedical Admissions Test is an aptitude test used as part of the admissions process for Medicine, Biomedical Sciences and Dentistry in some universities in the United Kingdom, Singapore, Spain, Malaysia, Thailand, Hungary, Croatia and the Netherlands.

● [Call us to book BMAT exam or BMAT preparation course for you.](#)

When can I take BMAT?

There are several BMAT sessions throughout the year and different universities accept different sessions, depending on their admissions cycle. It is important to know which one(s) you can take as part of your application.

Once you know which BMAT session is right for you, visit the test session pages (March, October, Malaysia or Netherlands) for information on:

- + the test format and how the test is scored
- + key dates and costs
- + how to register
- + what to expect on the test day
- + how to access your test results.

SAT Reading & Writing Section Areas	Skill / Knowledge Testing Areas	Weightage & Question Distribution
Craft and Structure	+ Words in Context + Text Structure and Purpose + Cross-Text Connections	Weightage: 28% Questions: 13-15
Information and Ideas	+ Central Ideas and Details + Command of Evidence based on - Textual and Quantitative Inferences	Weightage: 26% Questions: 12-14
Standard English Conventions	+ Boundaries + Form, Structure, and Sense	Weightage: 26% Questions: 11-15
Expression of Ideas	Rhetorical Synthesis Transitions	Weightage: 20% Questions: 8-12

SAT Reading section is a part of the evidence-based Reading and Writing part of the SAT. It has a total of shorter passages each having 10-11 questions and there will be a total of around 56 questions in the section. Each question has four answer choices. The reading comprehension part is designed to evaluate candidates' ability to understand the meaning of different contexts and their associated terms with meaning and to comprehend written text.

Types of Questions in the Reading & Writing Test

1. Craft & Structure

Students will be assessed for their comprehension, vocabulary, analysis, synthesis, and reasoning skills and knowledge to understand and use high-utility words and phrases in context. They would also be required to evaluate texts rhetorically and make connections between topically related texts.

2. Information & Ideas

Students will use comprehension, analysis, and reasoning skills and knowledge and the ability to locate, interpret, evaluate, and integrate information and ideas from texts and informational graphics.

3. Standard English Conventions

Students will use editing skills and knowledge to make the text conform to core conventions of Standard English sentence structure, usage, and punctuation.

4. Expression of Ideas

Students will use the ability to revise texts to improve the effectiveness of written expression and to meet specific rhetorical goals.

SAT Digital Math Syllabus 2024

Check out the SAT Digital Math syllabus for the exam that is scheduled to be conducted next in June 2024 is given below:

SAT Math Testing Areas	Skill / Knowledge Testing Areas	Weightage & Question Distribution
Algebra	<ul style="list-style-type: none"> + Linear equations in one variable + Linear equations in two variables + Linear functions + Systems of two linear equations in two variables + Linear inequalities in one or two variables 	Weightage: 35% Questions: 13-15
Advanced Math	<ul style="list-style-type: none"> + Equivalent expressions + Nonlinear equations in one variable and systems of equations in two variables + Nonlinear functions 	Weightage: 35% Questions: 13-15
Problem- Solving and Data Analysis	<ul style="list-style-type: none"> + Ratios, rates, proportional relationships, and units + Percentages + One-variable data: distributions and measures of centre and spread + Two-variable data: models and scatterplots + Probability and conditional probability + Inference from sample statistics and margin of error + Evaluating statistical claims: observational studies and Experiments 	Weightage: 15% Questions: 5-7
Geometry and Trigonometry	<ul style="list-style-type: none"> + Area and volume + Lines, angles, and triangles + Right triangles and trigonometry + Circles 	Weightage: 15% Questions: 5-7

For now, this is the standard SAT exam syllabus that will test both the reading+writing and maths sections of the SAT exam as per the new format or in the Digital SAT exam 2024 onwards.
